After choosing the file you want to upload, please click **“save”** in order to upload it to the system.

The upload may be done in more than one session, i.e., one file may be uploaded during one session and saved; another file may be uploaded during a following session.

In order to **submit** the report, the company has to click on the **SUBMIT REPORT** button (see below).

Please note that when a report is “Under Review” status you will have read-only access to the file.

Once the report is submitted, you will receive an email acknowledging that files were uploaded, and a list of the files uploaded, both by the uploading company and by your partner. **This message just acknowledges that the files were uploaded, prior to being reviewed.**

Please note it is a compulsory requirement to submit one hard copy of each report (Technical and Fiscals), in addition to uploading the soft copies to the system.
